The sponsor explains, "According to the Federal Trade Commission, identity thieves steal the Social Security number of a child in order to obtain a credit card, secure a loan, or buy property. Further, according to the Federal Trade Commission, the Social Security number of a child is uniquely valuable to identity thieves because children lack a credit history. Often, the child and parent do not find out about the theft until the child becomes an adult and seeks employment or applies for a student loan or buys a car."

The criminal offense of identity theft is defined when a person "possesses or uses, through any means, identifying information of another person without the consent of that other person to further any unlawful purpose." 18 Pa.C.S. §4120(a)

Identity theft is a misdemeanor of the first degree if the total value involved is less than \$2,000. Identity theft is a felony of the third degree if the total value involved is \$2,000 or more. Regardless of the total value, a third or subsequent offense is a felony of the second degree. 18 Pa.C.S. §4120(c)

A misdemeanor of the first degree is punishable by imprisonment not exceeding five years or a fine not exceeding \$10,000, or both. A felony of the third degree is punishable by imprisonment not exceeding seven years or a fine not exceeding \$15,000, or both. A felony of the second degree is punishable by imprisonment not exceeding ten years or a fine not exceeding \$25,000, or both. 18 Pa.C.S. Ch. 11
